

October 2017

Dear Parents,

Many thanks to the wonderful people who donated books from the Fall Festival Book Fair to our classroom. We were able to add some great titles to our collection which will be enjoyed by students for many years to come. You made our wishes come true!

We are moving right along in math. We just completed our first unit dealing with place value and polygons. Next up will be a review of addition and subtraction with regrouping.

Each Monday students will receive a Scholastic News magazine. They will have all week to read the selections and complete the questions on page 8. On Wednesday we will read the magazine together and read over the questions. Students will have an opportunity to check over their answers before handing the magazine in to be graded.

Just a reminder: please check and initial your child's planner each day and remove the papers and initial the Friday Folder each week. Thanks!

I am looking forward to meeting with you at conferences in a few weeks and talking with you about your child's progress!

Sincerely,
Jennifer Kugath
