

Dear Parents,

Science Fair is the big topic in 3rd and 4th grade these days. We have been reviewing the parts of the Scientific Method in Library/Media classes. The 20th will be here before we know it!

Fourth Graders are working on a brief research paper in English to go along with their Science Fair project. They have written questions about the science involved, researched to solve the questions, and wrote the answers in their own words. They will also include a Bibliography of resources used. They should be using the folders (journal) we gave them to hold the fair paperwork to record dates, data, and observations as they do the project. If the project came from a particular source (ex: book, web site) that should be recorded in the journal also.

Happy St. Patrick's Day,

Mrs. Michele Durbahn
