

Dear Parents,

In English we have started our second unit with nouns; common, proper, singular, plural, and possessive. We are worked on a synonym poem and will be researching a famous inventor in Creative Writing.

In VoWac we are working on the 10 ways to syllable slash words to help with pronunciation and comprehension of the word in context.

In Social we have been map skills. Now we zero in on the regions of our country talking about how they came to be populated and what they are known for economically and geographically.

In our Science work we have been exploring the rocks and minerals, erosion and weathering. Also included are discussions on the Scientific Method of exploring and experimenting with matter.

Spelling is challenging this year, but the students have proven that practice can get the job done.

Five of our Art projects have been chosen to go to the Arts Council Student Art show. Students were told if their project went.

I would like to use this opportunity to wish you and your family a blessed Thanksgiving holiday.

Sincerely,

Mrs. Michele Durbahn
