### Dear Parents,

I have had a great time with your children. They are so fun and so excited to learn. They have all been so good about wearing their masks or face shields too. I can't wait for the rest of the year!

### What We're Learning:

• **Math:** We will be beginning to learn and work on Addition; the kids have done very well with the little bit they've done already.

• **Science:** We will be starting our first science unit with Plants, Animals and People.

• **Social Studies:** We are finishing our first unit which is talking about our neighbor hoods and life at school.

• **Reading:** We are talking about Realist Fiction and the different parts of stories. We are also working on sounding out and decoding stories.

• **Writing:** We continue to work on our writing and making everything neat. We have also been talking about being an Author.

• **Language:** We have been working on some of the parts of speech such as nouns, present tense verbs, etc.
