Ms. Hellevik's 4<sup>th</sup> Grade

## From Ms. Hellevik...

It feels like spring is on its way! With the changes in weather we have been spending more time doing independent work out in the fresh air! Students also have enjoyed returning to Mass virtually and in person.

## In class this month....

**Language Arts:** Student completed their realistic fiction essays and hosted a publishing party by reading them to their peers! We have also continued to work on LA basics including homophones, sentence structure, parts of speech and identifying story themes.

**Math:** We just completed our Unit 6 test on fractions, division, and angles. Students enjoyed learning how to use a new tool; the protractor!

**Science:** Our focus this past month has moved to life science. We explored the idea of food chains/cycles and found that all living creatures play a vital role in our world's function.

**Social Studies:** Students spent time diving into the history of our neighbors to the north, Canada, and to the south, Mexico. The most exciting change is we chose our states and have begun work on our state research projects!

## Reminders...

- **Please continue to send your students with a clean mask and water bottle every day!**

## Upcoming Events...

- April 1 - Holy Thursday, No School
- April 2 - Good Friday, No School
- April 5 - Easter Monday, No School
