April 2021

What We Are Learning

- **Daily Five**

We have been talking about parts of a sentence (capital letter at the beginning, spaces between words, punctuation at the end) and practicing this during Work on Writing. In the month of April, we will begin to explore reading to others as well as writing stories to share with others.

- **Math**

In March, we introduced coin money and were busy counting quantities. Next, we will practice some simple addition and subtraction through number stories and games.

- **Religion**

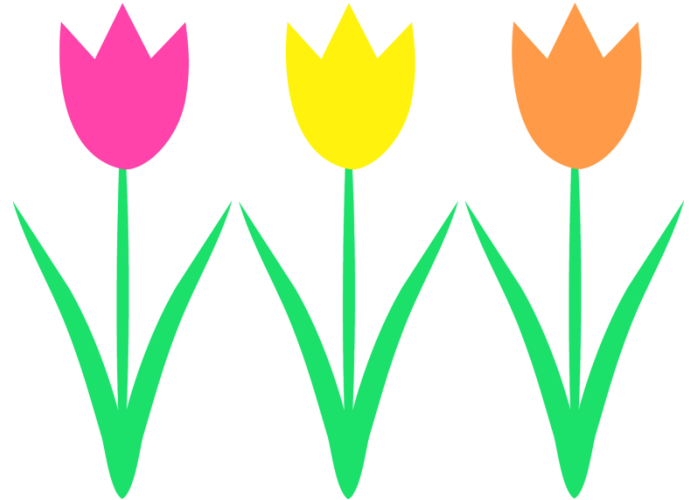

We will continue to learn about Jesus' life and teachings. Jesus was the example of serving others, and we will discuss ways that we too can be of service.

- **Science**

We will be starting our own classroom garden this month, as well as celebrating Earth Day. Our class will talk about ways we can reduce, reuse and recycle. We will also explore the ways that our Earth provides for us.

- **Social Studies**

Our next unit is on families. We will talk about the similarities and differences of each family and things we love about the people we love the most!

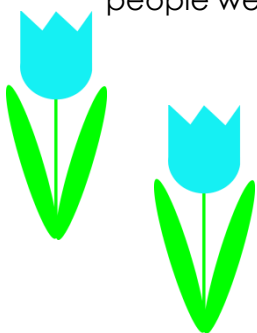

Upcoming Events

April 1 - April 5	No School (Easter Break)
April 26 - 30	Virtual Marathon for Non-Public Education
May 7	No School (Staff Work Day)
May 28	Last Day of School

Notes

Is your child reading each day at home? Aim for 20 minutes each night where your child is exposed to reading. Have them read to you, with you, or listen to you read. Reading at home will increase your child's comprehension, fluency, and overall reading ability.

The BEST way to become a better reader is to read, read, and read some more!

Thanks! Mrs. Omtredt
& Ms. Klindworth
