Ms. Hellevik's 3rd Grade

From Ms. Hellevik...

We have had a busy month at school and the students have been working hard in all subjects!

We have had some exciting lessons in science where we got to explore the life of an owl by dissecting owl pellets!

In class this month...

Language Arts: We are finishing Unit 1 of our reading resource with our first writing project! Combining all of our practiced vocabulary and convention skills, we are writing a paragraph about the season of fall. The students are writing away to share their favorite aspects of the fall season!

Math: In math, we have been working on the topics of rounding, bar graphs, and multiplication. Our next major topic is number stories and knowing, "What do we do with the numbers?" You can help your student by practicing multiplication flash cards and skills at home as well as in class!

Social Studies: Our focus in social studies has been on communities! We have been asking ourselves questions including; What communities are we part of and how can we contribute to them by our actions? What makes a helpful community member in church, home, or school?

Reminders...

- **As the weather gets colder, please send your students with hats, gloves, extra layers and jackets as needed!**

Upcoming Events...

November 5 - Staff Day, No School

November 22 & 23 - Conferences
3:30pm - 7pm

November 24 -26 - Thanksgiving
Break
