

Fourth Grade News

January 2022

Hello Families!

I sincerely hope that you all had a wonderful and joy-filled Christmas, and that you had a chance to bid 2021 a fond adieu. Here's to hoping that 2022 will be filled with blessings.

Now that we're knee-deep into the winter months, we'll really be focusing on our mathematics and literacy fundamentals. In math we will continue exploring multiplication and division strategies, as well as the metric system.

In Language Arts, we will focus on Realistic and Historical Fiction, Poetry, Drama, and Argumentative Texts. In addition to the reading, the students will have multiple opportunities to practice their writing skills.

Our Physical Science unit is coming to a close with the study of magnetism and the study of force, and we will be entering the Life Science Unit soon. In Social Studies, we will begin to explore Minnesota history more thoroughly.

As always, don't hesitate to contact me with any questions.

Have a great month!

-Mr. Dahle
