Ms. Hellevik's 3rd Grade

From Ms. Hellevik,  
February has been full of fun!  
This month, students were busy  
writing their opinion about  
whether or not Phil the  
Groundhog should see his shadow!  
It was fun to read the reasons  
students love winter or spring!

## In class this month....

**Language Arts:** Students completed Unit 3 which focused on everyday heroes. In their reading, students experienced a new genre; poems! We wrote our own personal acrostic poem as part of the experience. Students continue to work on skills including irregular plurals, suffixes, prefixes, and parts of speech.

**Math:** Unit 4 is flying by! We are learning about strategies for multiplication and fractions. Students use nearby facts on the fact chart to help them solve multiplication problems they don't know. Every week, I see improvement in their multiplication fact memorization skills!

## Reminders...

- With unpredictable winter weather, please continue to send students with **ALL** winter gear **every day!**

## Upcoming Events...

March 7 - Staff Day, No School  
March 29 & 31 - Conferences  
3:00-7:00 p.m.

In art, students created their own  
Minecraft selfies!
